Students are now attending a first-aid course at the University of Alberta. The course is being given by the Red Cross and is open to all students.

The first prize in the annual essay contest was won by a student of the University of Alberta. The essay was on the subject of "The Future of Canada" and was judged by a panel of experts.

A letter from the University of Alberta has been received by the Calgary office. The letter is from the President of the University and is dated January 10, 1932.

We often wonder how really great artists like Mark Hamblin, the artist who painted the picture on the left, manage to make any money. They are so good that they are almost impossible to buy.

It would be interesting to know if students in foreign countries are also attending first-aid courses. The course is being given by the Red Cross and is open to all students.

We recently heard that the report that the students of the University of Alberta were going to strike was a hoax. The students are all very happy and are attending their classes.

One of the symptoms of the high-water mark in the business world is the fact that many businesses are now closing their doors. This is due to the fact that many businesses are now overburdened with debt.

Mr. Hamblin, the artist who painted the picture on the left, is a very famous artist. He has painted many pictures and is very well known.

The picture on the left is a very famous picture. It is called "The Future of Canada" and was painted by Mark Hamblin.

Look Who's Here?

We were glad to notice by the picture that a "bird man" on a farm had been seen. The bird man was a very famous bird man and he had been seen on a farm.

It was a Lethbridge man who had been seen on a farm. The man was a very famous man and he had been seen on a farm.

The more characteristic of the farmer, especially the old-fashioned farmer, was the man who was seen on a farm. The man was a very famous man and he had been seen on a farm.

We don't know how it is now, but we were a good deal surprised that we were back the different people who were seen on a farm. The man was a very famous man and he had been seen on a farm.

What happened? It is with respect to the man who was seen on a farm. The man was a very famous man and he had been seen on a farm.

While going away at the time the farmer told us all about the bird man. The man was a very famous man and he had been seen on a farm.

"When Can You Deliver?"

THAT'S the customer's first question, usually. How do you answer him?

Your goods may be superior, your clerks may be courteous, your price attractive, but after all, unless your deliveries are prompt and dependable, your customers will be disappointed and trade elsewhere next time. Do you realize how many people judge a store by its deliveries?

Is your delivery system on a par with the rest of your business? Does it draw new trade or lose customers for you? Are your homes as suitable for you as they were at one time? If not, why do you persist in being a little behind the times when a Ford One Ton Truck would be more in line with your other business standards?

Perhaps your deliveries cost you too much. If you are using motor trucks, they may be too heavy for your line of business and therefore too expensive. The Ford Truck uses less fuel when handling a full load than some trucks use running empty.

The Ford One Ton Truck is a money saver, so why not modernize this department of your business?
